Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

Sl. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Occupational, Health & Safety	Risk	The company has high depth of manufacturing with multiple processes and material handling of large steel components. A large number of permanent & contractual workmen work in the plants which makes occupational health and safety a critical material issue.	The safety team has taken a long-term target to move towards zero accident company. ISO45001 practices help the company in this journey. Top management tracks the performance of the safety committee and the team has consistently improved on safety performance parameters.	Implication- Negative
2	Compliance	Risk	Heavy manufacturing operations in multiple locations & states makes it essential to ensure various state & central compliances.	The company has mapped all applicable regulations, and the team is managing the desired compliance level & aspiring path toward excellence by adopting international standards.	Implication- Negative

Sl. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
3	Human Rights Practices	Risk	Operations intensive business entails dealing with a large employee & worker base as well as supplier base. Hence human rights practices become important to ensure these social risks do not impact organization & its value chain.	Human rights issues are managed by a set of policies & procedures in place, in all manufacturing units and encourage all value chain partners to adhere to the same.	Implication- Negative
4	Ethics & Anti-Corruption	Risk	Ethical & fair business conduct is of prime importance to the company as highlighted from its core value of ISQ (Integrity, Safety & Quality)	A policy-driven approach is followed to create control mechanisms across all the operations and units. The company has an anti-bribery, anti-corruption policy applicable to all stake holders. Various organizational initiatives are helping to sensitize all stake holders.	Implication- Negative
5	Labour management	Risk	The company deals with large pool of human resource to manage its business operations. Any impact on its human resources has direct adverse impact on its business operations. Therefore, it becomes important to ensure robust labour management practices.	The company follows ILO guidelines and has well defined labour management procedures & practices in place which enable smooth functioning as per plan and avoid unwanted situations which could impact the production rate. There are no major losses that occurred in the past years due to any mismanagement of labour issues and the company has successfully maintained the track record of fulfilling its commitments on time. Overall this helps in building confidence in the system.	Implication- Negative
6	Corporate Governance	Risk and Opportunity	The company operates at a large scale & deals with multiple stakeholders during its business execution. Having a robust corporate governance is of paramount importance for the company. Organizations with strong corporate governance stay ahead of compliances and have positive equation with all its key stakeholders, such as regulators, investors, customers, employees and community.	The policy-driven approach taken to create a control mechanism across all the operations and units. Top management of the company has given top priority to corporate governance issues with clear policies, procedures available to refer all the time. Regular review of the policies ensures strong oversight on these issues.	Implication- Positive and Negative

Sl. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
7	Product Stewardship/ Supply Chain Sustainability	Risk	Being an OEM Product, stewardship is not in direct control of the company however a critical role is played in achieving supply chain sustainability.	The company has created an environmentally and socially sustainable supply chain through strict adherence to the applicable policies & procedures. This has reduced risk and helped in building confidence in the customer.	Implication- Negative
8	ESG Oversight	Opportunity	Sustainability or ESG is an important aspect for the organization which is highlighted by one of its core value "Safe & Green".	The company's top management has drafted and adopted ESG policies and these policies are published on the website of the company. Well-established procedures and able committee members ensure the execution of these policies across all levels.	Implication- Positive
9	Environment	Risk	The company is an auto component manufacturer with high depth of manufacturing and multiple processes. Therefore, environment conservation is an important aspect in its overall business functioning. If environmental concerns are neglected, it may attract regulatory penalty, action from investors and loss of confidence from customers.	The company works rigorously to identify improvement opportunities in various environmental aspects, such as water, air, ODS, space utilization, earth contamination etc. through various projects.	Implication - Negative
10	Energy Management	Risk	Heavy and high depth of manufacturing of multiple auto components entails high energy consumption. Increasing energy costs makes it important to ensure effective energy management practices.	Effective energy utilization is a part of the culture which follows GTC or Generation, Transmission & Consumption approach to identify energy reduction projects. The energy management teams have successfully identified improvement areas to reduce energy consumption per unit.	Implication- Negative
11	Green House Gas	Risk	Environmental sustainability has always been important which is highlighted by one of the core value of the organization "Safe & Green"	Being proactive, the company has aligned its GHG reduction roadmap to the national Net Zero Target. The company is in the process of making a long-term mitigation plan to achieve the net zero target.	Implication- Negative
12	Waste Management	Risk and Opportunity	Every manufacturing process generates some waste and zero waste is a long-term target to improve resource utilization. If issue of waste management is not addressed, it may attract regulator penalty therefore loss of reputation. While companies which manage waste management effectively generate positive impact on the environment.	Being proactive, the company has continuously reduced its waste significantly through structured VA-VE projects. The company's waste management practices ensure that desired compliance levels are met for both hazardous & non-hazardous wastes. The company follows the philosophy of 3R i.e. Reduce, Reuse & Recycle to drive it's waste management practices.	Implication- Positive

Governance, leadership and oversight

7 Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)

We are proud to present the second edition of our Business Responsibility and Sustainability Report (BRSR). The report demonstrates Jay Bharat Maruti Ltd.'s (JBML) unwavering commitment to environmental, social, and governance (ESG) issues and our continuous efforts to integrate these aspects in everything we do at JBML.

With ever changing macro environment and challenges posed by climate change makes it even more imperative for our organization to become more proactive and addressing emerging issues around environment and social aspects. The company takes pride in demonstrating efforts on adopting newer technologies and processes to reduce its impact on the environment. As we witness the rapid transition towards a low-carbon economy, the implications for the auto component industry, a hard-to-abate sector, are profound. We are acutely aware of the urgency of embarking on the decarbonisation journey to meet the evolving expectations of our stakeholders. At the same time JBML ensures it places highest priority on our employees and workers safety. To this effect we have increased thrust on increasing health and safety awareness, trainings and continued aligning with international best practices, such as ISO 45001:2018.

Further, as business operations and sustainability becoming more and more interlinked with its stakeholders, JBML proactively engages with its stakeholders at various levels. To this effect, JBML conducted materiality assessment last year demonstrating proactiveness in reaching out to the stakeholders in terms of factoring their views on sustainability. As a step further, this year we internally reviewed the assessment which has helped us to sharpen our focus on issues that have evolved over the year. Regular review of material issues helps to keep us on track to channelise our efforts to most relevant ESG issues impacting our business and society.

PRINCIPLE 4: Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

- 1 Describe the processes for identifying key stakeholder groups of the entity:

The company identifies internal and external stakeholders based on whether they are impacted by the company or create an impact on the value-creation process. Based on this, the company has identified employees as internal stakeholders and stakeholders, customers, value chain partners & regulators as external stakeholders.

The key stakeholders identified include Customers, Employees, Business Partners (Suppliers and Vendors), Community, Investors, and Government Bodies. Our approach towards responsible and sustainable business practices undergoes a systematic mapping

through regular engagement with its internal and external stakeholders. This practice helps the Company to prioritize key sustainability issues in terms of relevance to its business and stakeholders, including society and clients.

We undertake our materiality assessment to embed sustainability aspects of our operations based on their impact on business, changing market scenarios, and stakeholder expectations. The company has established a dedicated policy for 'Stakeholder Engagement'. This policy contains purpose, scope, policy statement, accountability & grievance procedure for stakeholders. The Company has identified investors, shareholders, employees, local communities, legal institutions, trade associations, suppliers, business partners, customers, government, regulators, and competitors as its key stakeholder groups.

Leadership Indicators

- 1 Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

At JBML, the stakeholder engagement mechanism is a key driving force toward strengthening stakeholder relationships. The company conducted materiality assessment survey previous year in which the stakeholders views were factored on material issues. This year we reviewed those material issues and priority areas. This exercise helps us to continuously evolve our strategy and process towards sustainability.

- 2 Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No).

If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes. We constantly engage with stakeholders to actively contribute to the materiality assessment process. Through ongoing interactions with both internal and external stakeholders, we identify significant issues that have an impact on our capacity to generate value. These noteworthy matters are thoroughly reviewed each year, considering their relevance to management procedures, risk evaluation, and strategic aims.

- 3 Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

Yes, Stakeholder consultation is used to support CSR initiatives for addressing environmental and social issues.
